

CORIOmaster micro application Multi-Window Processor on a 4K screen

In control room applications, a large 4K display gives a crystal clear canvas for monitoring activity. Here, an 8K still image has been overlaid with two PIP's and the streaming play list manager is controlled through **CORIO**grapher, relaying the IP camera streams as a playlist carousel.

Equipment list

- 1 x CORIOmaster micro (C3-503)
- 2 x 4K input cards (CM-HDMI-4K-2IN)
- 1 x 4K Output card (CM-HDMI-4K-SC-1OUT)
