

## CORIOmaster micro 4K application

Corporate collaborative video wall, two 4K sources to four 1080p displays

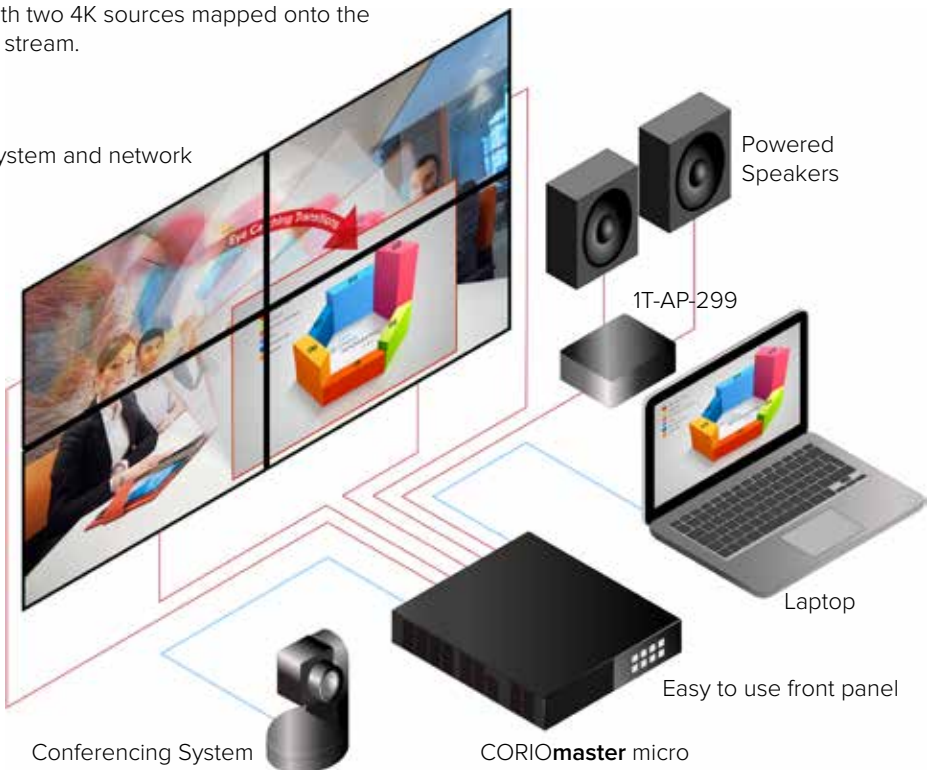

Increase productivity and efficiency in your boardroom by displaying multiple sources on your video wall. Here, four 1080p displays provide a large visual of digital real estate with two 4K sources mapped onto the video wall featuring a graph and a live video stream.

### Equipment list

Computer with current Windows operating system and network cable for set up and system programming.
