Universal mounting, powering and
cooling system for small devices

Patent Pending

 tvONE

ONErack™

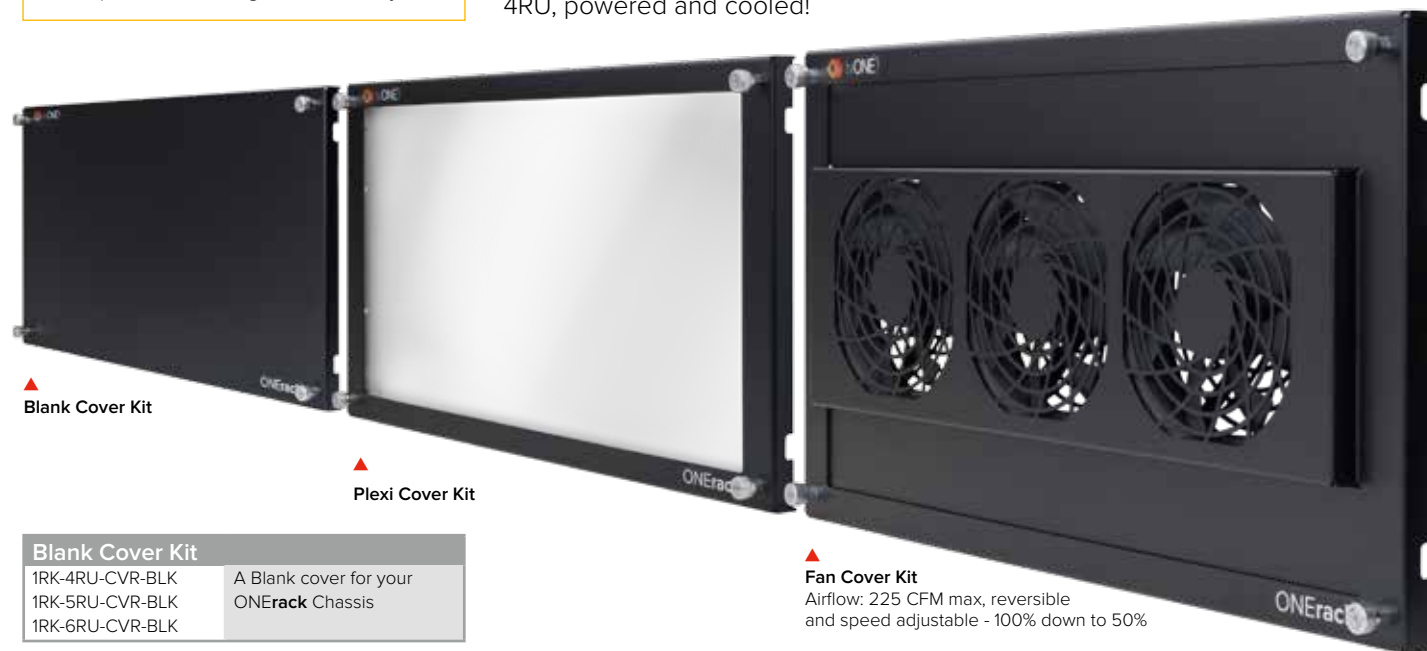

Universal rack mounting system

Features

- ◆ Universal mounting for any brand
- ◆ Variable DC voltages from single power supply
- ◆ Reversible active fan cooling system for high density applications
- ◆ Available in 3 sizes; 4RU, 5RU, 6RU
- ◆ Power up to 32 devices in 4RU, 64 devices in 5 or 6RU
- ◆ Each slot can provide 2 different voltages at the same time
- ◆ Each slot has 7 different voltage settings
- ◆ Pass thru allows for custom powering options
- ◆ Fast easy installation of small devices
- ◆ Simple, time saving serviceability

Overview

ONErack is a universal, powered mounting system that vastly improves rack installation of small devices. tvONE's patent pending design converts randomly sized, externally-powered devices from any manufacturer into slide-in modules that can be installed quickly and cleanly and serviced easily. Chassis are available in 4RU, 5RU and 6RU and can hold up to 16 modules with up to 2 power circuits each. When using the ONErack Power Supply, each power circuit, can provide selectable power @ 5v, 7.5v, 9v, 12v, 13.5v, 18v, & 24v up to 35 watts. A pass thru is also available for custom power sources. Each ONErack Chassis can include 1 or more Power Supplies for added power which can also feed additional chassis, providing a clean power solution for all mounted devices. For service, just slide out a failed device, no cable ties, no guessing. Close the front of your ONErack with a Fan cover and keep it all cool. Up to 32 devices in just 4RU, powered and cooled!

▲ Plexi Cover Kit

▲ Fan Cover Kit
Airflow: 225 CFM max, reversible and speed adjustable - 100% down to 50%

Blank Cover Kit	
1RK-4RU-CVR-BLK	A Blank cover for your ONErack Chassis
1RK-5RU-CVR-BLK	
1RK-6RU-CVR-BLK	

Plexi Cover	
1RK-4RU-CVR-PLX	A windowed covered option allows for visual checks without removing the cover.

Cable management accessory	
1RK-CBL-MGMT	

▲ Mount this adjustable cable management accessory to the rear of any ONErack chassis to provide a clean installation for all the cables in your ONErack.

▲ Universal mounting of any manufacturers device

▲ Provide additional connection points on module

▲ Front locking keeps your devices tight and secure

▲ Chassis comes in 3 different sizes 4RU, 5RU & 6RU

▲ Power circuit with voltage selector for a choice of 7 different voltages. Includes a pass thru option for custom power voltages supplied by 3rd party manufacturers

▲ Power Supply Kit
250w max. Position anywhere within chassis

▲ Eliminate that single point of failure with new ONErack Dual Redundant and Hot Swappable Power Supply. It slides into any sized chassis and provides a front of rack load meter as well as fault indicators for both of the load sharing power supplies. In addition to a Front of rack service port this new power supply also provides resettable fuses, DC power conditioning and surge protection for all of your small, sensitive gear!
