1.0 INTRODUCTION

Thanks for purchasing this MX-3141CSVA 4x1 Video and Audio Switcher from TV One. The MX-3141CSVA is designed to switch 4 different Video inputs and their associated stereo audio inputs. The Video inputs can be either Composite or S-Video and the Audio inputs are Right and Left channel analog audio. Our professional video conversion products have been serving the industry for over twenty years. TV One offers a full line of high quality Video Scalers, Scan Converters, Analog-Digital (DV, SDI, HD-SDI, DVI) Converters, Standards Converters, Digital Video Recorders, Frame Synchronizers, Time Base Correctors, LCD Monitors, Matrix Routing Switchers and Distribution Amplifiers.

1.1 Liability Statement

Every effort has been made to ensure that this product is free of errors. TV One cannot be held liable for the use of this hardware or any direct or indirect consequential damages arising from its use. It is the responsibility of the user of the hardware to check that it is suitable for his/her requirements and that it is installed correctly. All rights reserved. No parts of this manual may be reproduced or transmitted by any form or means electronic or mechanical, including photocopying, recording or by any information storage or retrieval system without the written consent of the publisher.

TV One reserves the right to revise any of its hardware and software following its policy to modify and/or improve its products where necessary or desirable. This statement does not affect the legal rights of the user in any way.

All third party trademarks and copyrights are recognised. The TV One logo, TV One-task and CORIO are the registered Trademarks of TV One. All other trademarks are the property of their respective holders.

1.2 FEATURES

The MX-3141CSVA 4x1 Video and Audio Switcher has many features that enable it to perform in a superior manner. Among those features you will find:

- Supports standard 480i and 576i Video Inputs
- Both front panel and remote control
- RS-232 Interface for system integration
- LED input selector indicators
- Analog Stereo Audio follow Video switching
- Very low Differential Phase and Gain Specification

2.0 SPECIFICATIONS

Video Inputs	
Composite Video	4x RCA
S-Video	4x 4-pin Mini-Din
Video Outputs	
Composite Video	1x RCA
S-Video	1x 4-pin Mini-Din
Audio Inputs	
Analog Stereo Audio (R/L)	4x, 2 ea RCA
Audio Outputs	
Analog Stereo Audio (R/L)	1x, 2 ea RCA, 1x 3.5mm Mini Connector
Performance	
Video Level (Composite) (S-Video)	1V p-p Y: 1V p-p, C: 0.286 p-p
Video Bandwidth	300MHz +
Video Impedance	75 Ω
Differential Gain	0.05%
Differential Phase	0.05 degrees
Audio Level	(L/R) 2Vrms max @ 47K Ω
Audio Bandwidth	20Hz to 20 KHz
Audio Impedance	47K Ω
Television Standards	NTSC, PAL
Supported Video Signals	
I/O	Composite, S-Video: NTSC & PAL
Mechanical	
Size (H-W-D)	1.87"x11.5"x7" (48x292x176mm)
Weight (Net)	3.3 lbs (1.5Kgs)
Warranty	
Limited Warranty	2 Years Parts and Labor
Environmental	
Operating Temperature	0° to +48° C (+32° to +120° F)
Operating Humidity	10% to 85%, Non-condensing
Storage Temperature	-10° to +70° C (+14° to +158° F)
Storage Humidity	10% to 85%, Non-condensing
Power Requirement	
External Power Supply	5VDC@2A - Locking DC
Regulatory Approvals	
Switcher Units	FCC, CE
Power Supplies	UL, CE, CSA
Accessories Included	
1x AC Power Adapter	US, UK or European Type
1x IR Remote Control	
1x Rack Mount Kit	
1x Operations Manual	

3.0 CHECKING PACKAGE CONTENTS

Before attempting to use this unit, please check the packaging and make certain the following items are contained in the shipping carton:

- 1x MX-3141CSVA 4x1 Composite/S-Video/Stereo Audio Switcher
- 1x AC Power Adapter
- 1x IR Remote Control
- 1x Rack Mount Kit
- 1x Instruction Manual

Note: Please retain the original packing material should the need ever arise to return the unit. If you find any items are missing, contact your reseller or TV One immediately. Have the Model Number, Serial Number and Invoice available for reference when you call.

4.0 CONNECTING THE HARDWARE

Please study the panel drawings below and become familiar with the signal input, outputs, power requirements/inputs plus any controls present.

MX-3141CSVA Front Panel

The front panel contains the power switch and LED Power Indicator, the Infrared Sensor window and the four input selectors plus LED indicators that show which input has been selected.

MX-3141CSVA Rear Panel

From left to right, the rear panel features the RS-232 connector, the output connectors for S-Video, Composite Video, RCA type connectors for Left and Right audio channels and a 3.5mm Mini plug for the same audio signals.

To the right of the output connectors are four identical sets of input connectors for channels 3 and 4 and, farther to the right, for channels 1 and 2. The connectors are for analog stereo audio (R&L channels), Composite Video and S-Video.

Finally, at the extreme right is the power connector used to connect the AC power adapter.

The user should connect the inputs using high quality, known good cables, connect the RS-232 cable if used and finally connect the video and appropriate audio outputs to a monitor or projector or other destination device, again using high quality, known good cable.

After connecting the signal cables, the AC power adapter should be connected, first to the MX-3141CSVA and then to the AC power source.

5.0 OPERATING THE MX-3141CSVA

Once the signal cables and AC power adapter have been connected, the switcher can be turned on using the front panel power switch.

If the appropriate signals have been applied to the inputs, a high quality signal should appear on the monitor or projector as each input in turn is selected.

Gain is unity so the output should mirror the inputs in all cases.

Note: Audio I/O is line level. It is not possible to directly feed speakers or receive audio from a source speaker output. Damage may result if attempted.

5.1 OPERATING THE MX-3141CSVA USING THE INCLUDED IR REMOTE

Operation of the switcher via the included Infrared Remote Control is a matter of simply pointing the remote at the MX-3141CSVA and selecting the appropriate input on the remote control. In order for the remote to function properly, the small square window on the front of the MX-3141CSVA must be unobstructed and not in sunlight or extremely bright artificial light and the distance from the IR remote and the switcher should not be more than found in a standard residential room.

6.0 TROUBLESHOOTING

Most problems encountered with the MX-3141 series of products relates to faulty cables, incorrect signal levels from the sources or an attempt to connect more than one source to an individual channel.

If some inputs function correctly and others do not, interchange cables between sources and see if the problem moves with the cables. If it moves, a bad cable or cable connector is the probable reason for the trouble. If the problem remains with one particular input, connect that source to a different input using the same cable and see if the problem moves. If it does, the problem is with the source.

As to multiple connections made to the same input, it is not possible to have both an S-Video source and a Composite Video source on the same input. Connect only one or the other to an individual input.

After trying the above suggestions should the problem still persist, contact your dealer for additional suggestions before contacting TV One. Should the dealer's technical personnel be unable to assist you, contact TV One via our support website: <http://tvone.crmdesk.com>. Create a technical support request on the site and our support team will respond within a short period of time.

7.0 LIMITED WARRANTY

LIMITED WARRANTY – With the exceptions noted in the next paragraph, TV One warrants the original purchaser that the equipment it manufactures or sells will be free from defects in materials and workmanship for a period of two years from the date of purchase. Should this product, in TV One’s opinion, prove defective within this warranty period, TV One, at its option, will repair or replace this product without charge. Any defective parts replaced become the property of TV One. This warranty does not apply to those products which have been damaged due to accident, unauthorized alterations, improper repair, modifications, inadequate maintenance and care, or use in any manner for which the product was not originally intended.

Items integrated into TV One products that are made by other manufacturers, notably computer hard drives and liquid crystal display panels, are limited to the term of the warranty offered by the respective manufacturers. Such specific warranties are available upon request to TV One.

If repairs are necessary under this warranty policy, the original purchaser must obtain a Return Authorization Number from TV One and return the product to a location designated by TV One, freight prepaid. After repairs are complete, the product will be returned, freight prepaid.

LIMITATIONS - All products sold are "as is" and the above Limited Warranty is in lieu of all other warranties for this product, expressed or implied, and is strictly limited to two years from the date of purchase. TV One assumes no liability to distributors, resellers or end-users or any third parties for any loss of use, revenue or profit.

TV One makes no other representation of warranty as to fitness for the purpose or merchantability or otherwise in respect of any of the products sold. The liability of TV One with respect to any defective products will be limited to the repair or replacement of such products. In no event shall TV One be responsible or liable for any damage arising from the use of such defective products whether such damages be direct, indirect, consequential or otherwise, and whether such damages are incurred by the reseller, end-user or any third party.

8.0 REGULATORY COMPLIANCE

The MX-3141CSVA has been tested for compliance with appropriate FCC and CE rules and regulations.

The Power Adaptor/Supply has been tested for compliance with appropriate UL, CSA, CE Rules, Regulations and/or Guidelines.

This Product and Power Adapter is RoHS Compliant.
