RoHS Certificate of Compliance

The Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment

tvONE declares that all current products comply with the UK RoHS Regulations 2012 (S.I. No. 3032) that restricts the use of the hazardous substances listed below in electrical and electronic equipment.

Compliance is either because the product does not contain any of the restricted substances at concentrations in excess of those permitted under the RoHS Directive or because removal of the restricted substances is not technically possible and their existence in the products at levels in excess of these concentrations is allowed.

For these purposes, the maximum concentration values of the restricted substances by weight in homogenous materials are:

Lead 0.1%

Mercury 0.1%

Hexavalent Chromium 0.1%

Polybrominated Biphenyls 0.1%

Polybrominated Diphenyl Ethers 0.1%

Cadmium 0.01%

Bis(2-Ethylhexyl) phthalate (DEHP): 0.1%

Benzyl butyl phthalate (BBP): 0.1%

Dibutyl phthalate (DBP): 0.1%

Diisobutyl phthalate (DIBP): 0.1%
